FATAL ACCIDENT. One Man Is Dead, and Another Injured Beyond Recovery.

Special to the Indianapolis Journal. ANDERSON, Ind., July 28.-A Panhandle switch train struck two men this morning at the station, one of whom is dead, and it is thought the other cannot survive his injuries. Both were comparative strangers in Anderson. Benton Rose, who is about thirty years of age, and whose home is in Fairfield, near Connersville, has been in Anderson several weeks residing with a cousin. He came here in search of work and found employment in the schofield bolt works. Yesterday his friend, Andrew Hayworth, of the same place, came here on the same errand. He spent the night with Rose and started this morning for Elwood. It was raining very hard at the time and Rose took an umbrella and started to the station with him. At the foot of Pearl street the men stepped on the railroad tracks and in front of an approaching train. They did not look up and as it was storming did not hear the approaching train nor the cry of warning from a brakeman. The engineer saw the brakeman's signal, but it was too late to stop and both were caught by the train. Hayworth was literally mashed into a pulp, almost every bone in his body being broken and the scalp torn from one side of his head. Rose's injuries are of a very serious character. The injured men were taken to St. John's Hospital, where Hayworth died a few minutes before noon. Rose is suffering and it is thought his wounds are of an internal character. He rallied in the early afternoon, but this evening was sinking. The friends of the men have been notified. The accident was witnessed by quite a number of persons who were at the station waiting for the train and all agree that the trainmen were in no way responsible for the accident.

KANKAKEE SWAMP FRAUD.

Marsh Lands "Worked Off" on Unsus-

pecting Purchasers at Chicago. Special to the Indianapolis Journal. CROWN POINT, Ind., July 28.-Several citizens of Hebron, Ind., have been summoned as witnesses to appear before the grand jury at Chicago in a few days to testify on fraudulent land deals near that Porter county town. This of Africa convened here to-day. There are release from the contract.

Riverside addition is situated three miles south of Hebron and the only way it can be reached is by a boat through the marsh or down the river. It meets the shore of the Kankakee river at No. 62, a shanty known by that name to hanters and trappers. In real dry weather Riverside is kneedeep with water and in wet weather it is easily twelve feet deep and is almost dangerous to undertake to push a boat through it, as it is a very treacherous place when the water is high. Riverside is full of snakes, turtles, mud hens, lizards, pucker brush and weeds. Great trees have fallen in the underbrush, forming a perfect jungle. These lots were put up and sold for 'choice" building lots. It is said by Hebron parties that these lots were sold and traded for other valuable Chicago property by land sharks to innocent purchasers. who picked their lots from plats and never saw the land they purchased. On paper it is said Riverside has a very strikng appearance. Should a house be built there it would be necessary to have a foundation thirty feet high to keep the first floor dry. The swindled people have discovered the fraudulent deal and now ask the court to take steps to recover their money. It is said a woman traded

A SOCIETY MAN Attempts Suicide in Baltimore in His Friend's Room.

BALTIMORE, July 28 .- Hanson L. Withers, jr., of Philadelphia, the twenty-eight-year-old son of wealthy parents, and prominent socially that he was not a member of the club, both here and in the Quaker City, attempted suicide this morning by shooting himself in the head at the fashienable Mount Vernon Hotel in this city. It is asserted that he also tried to shoot Walter B. Pierce, aged twenty-six, of this city, whom he was visiting, and whose apartments at the Mount Vernon he was sharing when the tragedy happened. A vigorous effort was made to keep the matter from the police. Everything seems to have pointed to the fact that Withers had been drinking heavily of late, that he was despondent over an unsuccessful love affair, was worried about money matters, and that if he really attempted

to shoot Mr. Pierce it was the result of herv ness or a temporary mental aberration. Mr. Withers's wound is serious, but not necessarily fatal. The story, as told by Mr. Pierce, the only eyewitness, is that he and Withers have been fast friends for several years, frequently ex-changing visits. The young Philadelphian's parents have recently gone to Europe and Withers came here a few days ago to visit his friend. Mr. Piesce is soon to be married and Withers was to have been his best man, and Pierce scouts the idea that his friend intended to kill him.

Elliott, chairman, and Joseph B. Mitchell, secretary and treasurer. The failure, it is stated on good authority, was not caused by any losses in the firm's legitimate business, but is due entirely to the great shrinkage in the value of share securities. the Times's Influence. special to the Indianapolis Journal. WASHINGTON, July 28 .- Ex-Congress-

man Conn, formerly of Elkhart, but now publisher of a daily newspaper in this city, this morning secured warrants for the arrest of Marshall Cushing and Hebart Brooks, the first as editor, and the second as publisher of the Washington Capital, on a charge of criminal libel. The basis of the charge made by Mr. Conn is the publication by the Capital on Saturday of a statement in regard to the position of the Times (Mr. Conn's paper) on the financial question. Mr. Conn's paper has already assumed the special championship of organized labor, and its recent outspoken advocacy of the gold standard and enmity toward silver has caused much comment. The publication contained two letters purporting to have been written by Mr. Conn to a prominent politician in which the support of the Times was offered to the silver advocates for some consideration other than a desire to promote the public welfare. In the alleged reply, the silver advocates are quoted as saying that "While we have

sufficient funds to meet all legitimate campaign expenses, we are not buying up news-Mr. Conn states that no such correspondence ever passed. Mr. Cushing was sued some time ago by Captain McKee, of Logansport, for libel. There has been friction between Messrs.
